Axor Montreux

The Axor brand.

The visionary concept of the Axor brand combined with the tradition of Hansgrohe has made Axor a design brand of the highest quality. Axor was amongst the first to seek cooperation with international designers like Philippe Starck, Antonio Citterio, Patricia Urquiola, Jean-Marie Massaud and Phoenix Design. Thanks to a multitude of independent and high-quality design collections, Axor is able to offer its clients the maximum scope for creative design, with the most diverse styles and the widest range of products, from fittings for washbasins to showerheads and accessories.

To make it easier for you or your clients to combine the Axor product lines with matching washbasins, we have developed this overview for you. Combined with the current programs of renowned ceramics producers Duravit, Ideal Standard, Keramag, Laufen and Villeroy&Boch, this offers you good support for bathroom design, seen as a whole, and enables you to meet the individual wishes of you or your clients.
